Not possible And Excel and Quattro Pro conversion was a disaster So I agree, before buying into a package, understand the true capability of conversion to other formats.. well, that was a major overstatement the conversion actually only worked on plain text.. Includes new versions of Word, Excel, PowerPoint, Outlook, and OneNote If you really want the features of a particular product, just buy that product and avoid conversion frustrations..

Both computers are running Office for Windows (I think it is the '07 version) I tried Office for Mac, but just didn't like the feel of it.. Looked like there was a little learning curve involved which I didn't want to get into.
